

Amendments to the Claims

1-17. (Cancelled)

18. (Previously presented) A hazardous material storage facility comprising:  
an upper floor having openings therethrough;  
a lower floor that is sloped from an upper end to an elongated basin;  
at least one vent duct disposed beneath the upper floor and adjacent to the lower floor basin, the vent duct including vent openings structured to allow air and fumes to be introduced into the vent duct; and  
means for removing the air and fumes in the vent duct therefrom;  
wherein the elongated basin includes a channel disposed at the bottom of the basin;  
wherein said at least one vent duct is disposed below said lower floor and above the bottom of said channel, said vent openings extending between said at least one vent duct and said channel, and  
wherein said lower floor includes a turbulator disposed adjacent to said channel.

19-23. (Cancelled)
